Ignite Food Drive and Vinnies Winter Appeal

Ivy Magistrado

On the 20th June, students dressed up in mufti clothes to support the Ignite Food Drive and the Vinnies Winter Appeal. Students generously donated items such as nappies, baby formula, spreads, tea, coffee, warm clothes, and blankets to assist families who may be struggling during this cold time of the year. These items will definitely provide the practical love and care needed to ease the everyday challenges as well as provide hope for those facing poverty.

It was a beautiful way for students to apply what they had learned about living out our purpose and upholding the dignity of the human person

Santa Sophia represented at NSW Cross Country Carnival

Lisa Kalocsai

On Friday 15th June, Willem Machin represented the Parramatta Diocese at the NSW Combined Catholic Schools Cross Country Carnival at Eastern Creek. Willem placed 26th in the Under 12's race, which was one of the most successful performances from Parramatta representatives on the day. Congratulations Will!

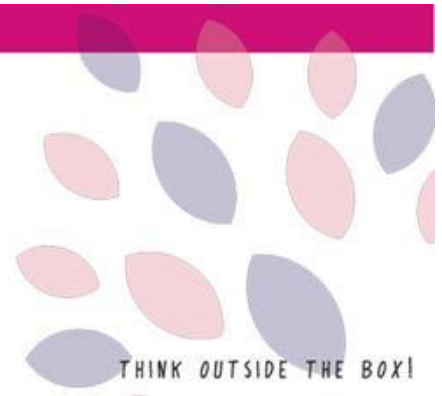

Ancient Egypt Interactive Virtual Museum

Lisa Kalocsai

Year 7 History students created an Ancient Egypt interactive virtual museum during Term 2 and held an exhibition on Wednesday 4th July. Visitors used smartphones and iPads to scan artefacts within the virtual museum, which then played videos made by the students, explaining the artefact in more depth.

The students presented information about laws, religions, social structures, funerary customs, warfare and significant individuals in Ancient Egypt. They enjoyed decorating their booth and sharing their knowledge with parents and Year 10 students from St John Paul II.

What I Learnt

Project GENESIS

Mia-Chevelle Crescini

During the Project Genesis, I learnt two main things. The first thing I learnt during this project, was the seven days of creation. We had to write what happened during the seven days in a picture book, which helped with memorising the order of what happened during that week. Writing a simple recount helped us learn and remember what God created for us at the beginning of time. Another thing that I learnt during this project was how the 'Big Bang' fits into the creation story. I learnt that the creation story doesn't say that the Big Bang theory was wrong in any way, but proves that there is more than *just* the Big Bang

Ancient Egypt Project

Aiden Carle

In the Ancient Egypt project this term we learnt about three different topics that we got to choose. We had to make a one minute video that we put on HP reveal where the video could be watched when you hover over the picture.

We made four different videos that provided information on slaves, mummification and Ramses II. We also used a script tool that we had to put information that we had in our own words that we read off from. At the end we had to set up an exhibit for our three videos that were watched by kids from the other schools and parents that came in.

Upcoming Events

	Sun	Mon	Tues	Wed	Thurs	Fri	Sat
July	8 School Holidays Begin	9	10	11	12	13	14
	15	16	17	18	19	20	21
